AUN-QA

one score per criterion

app/aunqa.php + schema

61 + 43 lines

Generic scoring engine (app/scoring.php)

221 lines, keyed on category and scheme code

0 lines changed for PMQA (6f79b81 → ab9c30e)

Dedicated module

shape does not match

the engine's assumptions

Boundary condition

configuration-only extension succeeds when a framework's scoring paradigm is structurally congruent with the engine, not when the domains merely look alike
